Universal Instruction Manual for Outdoor Sports Products (EU Standard)

1. Product Overview

This series of outdoor sports products is specially designed for Aliexpress global buyers, covering camping, hiking,mountaineering, picnicking,Outdoor Tools,Sports Accessories,Fishing accessories ,Cycling Accessories,Ball Accessories and other outdoor scenarios. All products fully comply with EU GPSR Regulation

Key Features:

- Durable & Environmentally Friendly Materials: High-density nylon, polyester, food-grade PP, corrosion-resistant stainless steel, aluminum alloy, and PFAS-free waterproof fabrics
- Lightweight & Portable Design: Ergonomically optimized, easy to carry and store, suitable for long-distance outdoor activities and travel.

2. Usage Instructions

Before using the product, carefully check the integrity of the product and its accessories (such as buckles, zippers, poles, wires, etc.). If any damage, looseness or abnormality is found, stop using it immediately to avoid safety hazards.

Use the product strictly in accordance with its intended purpose and load-bearing limit; do not modify, disassemble or misuse the product, as this may affect its safety performance

Usage Steps for Common Product Types

- Camping Tents: Unfold the tent on a flat and clean ground, assemble the tent poles according to the assembly diagram, fix the tent with ground nails and wind ropes, ensure the tent is tight and stable, and avoid setting up near open flames
- Hiking Backpacks: Adjust the shoulder straps, waist straps and chest straps according to your body shape to ensure a comfortable fit; place heavy items close to the back to reduce shoulder pressure, and do not exceed the specified load-bearing limit.
- Outdoor Lighting: Install batteries or charge the product according to the instructions; turn on the switch to select the required brightness mode, and turn off the switch in time when not in use to save power; ensure the waterproof seal is intact when used in rainy days

3. Operation & Maintenance

Operation

Test the product's basic functions (such as tent waterproof performance, lighting switch, cookware heating) before formal outdoor use to ensure normal operation.

During use, pay attention to the product's state at any time; if abnormal phenomena such as looseness, damage or failure are found, stop using it immediately and handle it after inspection and repair.

For electrical outdoor products (such as camping lights), ensure that the power connection is firm and there is no exposed wire to prevent short circuits and electric shocks (complying with EU ECE R10 electromagnetic compatibility standards if applicable).

Maintenance

Cleaning: After use, clean the product with a mild, pH-neutral detergent and a soft cloth; for waterproof fabrics, avoid using abrasive cleaners or brushes to prevent damage to the waterproof coating; dry the product naturally in a cool and ventilated place, do not expose it to the sun for a long time to avoid material aging and deformation.

Inspection: Inspect the product regularly (once a month for frequent use, once a quarter for occasional use) for loose buckles, worn zippers, broken stitches, rusted metal parts, or damaged

waterproof seals; repair or replace damaged parts in time.

4. Compliance & Safety

This product complies with the following EU regulations and standards to ensure compliance with the requirements of the European Economic Area (EEA) market and Aliexpress platform:

- GPSR Regulation (EU) 2023/988: General Product Safety Regulation, replacing the former GPSD Directive 2001/95/EC, ensuring the overall safety of outdoor products.
- REACH Regulation: Restricts the use of hazardous substances (such as PFAS, lead, cadmium, polybrominated diphenyl ethers), with lead ≤0.05% and cadmium ≤0.01% for metal parts, and DEHP/DBP/BBP ≤0.1% for plastic parts.
- RoHS Directive: Restricts hazardous substances in electrical and electronic components (such as batteries and lighting) to protect the environment and human health.

5. Technical Specifications (General)

Parameter Value

Material： High-Density Nylon / Polyester / Food-Grade PP / Stainless Steel / Aluminum Alloy / PFAS-Free Waterproof Fabric

Operating Temperature：-20° C to +60° C

Protection Rating (Electrical Products)：IPX4 - IPX6

Power Supply (Electrical Products)：12V DC / USB Rechargeable / AA/AAA Batteries

6. Warranty

This product is backed by a 2-year warranty against manufacturing defects. The warranty is void if damage is caused by improper installation, misuse, or failure to follow maintenance guidelines.
