PROTECTIVE CERAMIC COATING SPRAY FOR CARS

KIT CONTENTS

- 1 x Spray Bottle (10FL.OZ)
- 1 x Microfiber Towel
- 2 x Sponges
- 1 x Instruction Manual

PRODUCT DESCRIPTION

Wash and dry your vehicle thoroughly before application.

STEP 1

Shake the bottle evenly before spraying. Spray a light coat of the product directly onto the car paint surface, covering one panel or a small area at a time.

STEP 2

Use one side of the included sponge to lightly wipe the coating and spread it evenly across the surface.

STEP 3

Immediately use the microfiber towel to lightly buff the coating for a brilliant shine! The coating will cure completely in about 2 hours.

⚠ WARNING

1. The sprayer is equipped with a side-to-side locking button on its body. Ensure the button is set to the "on" position for normal operation.
2. This product must be used only on a clean, dry vehicle surface with no specks, bug residues, road grime or other contaminants.
3. DO NOT use this product under direct hot sunlight, as it will affect the coating effect and curing process.
4. Keep this product out of reach of children and pets to avoid accidental ingestion or contact.

5. Avoid contact with eyes and mucous membranes. In case of accidental contact, rinse thoroughly with plenty of clean water immediately.
6. Do not apply the product on non-painted surfaces unless confirmed compatible; test on a small inconspicuous area first if in doubt.
7. Do not store the product in extreme temperatures (either too high or too low) and keep it in a cool, dry place.

PRODUCT FEATURES

- SCRATCH RESISTANT
- CORROSION RESISTANT
- HIGH TEMPERATURE RESISTANT
- ANTI-FOULING
- ANTI-FADING
