

PRODUCT MANUAL

1. Product Information **【Mandatory】**

Product Name: [Plastic Fasteners (Multipurpose Fixing Clips)]

Model: [FC-10B-001]

Batch/Serial Number: [20260204-01]

2. MANUFACTURER & EU REPRESENTATIVE INFO **【Mandatory】**

- Manufacturer: [Hangzhou Tubo Trade Co., LTD, Room 18-6, Building 18, No.68 Jinheng Road, Liangzhu Street, Yuhang District, Hangzhou City, Zhejiang Province, 15268559595]
- EU Authorized Representative: [APEX CE SPECIALISTS, France]
- 64 Rue Waldeck-Rousseau 69006, 15268559595]

3. Compliance Information **【Mandatory】**

This product complies with the following EU regulations and harmonized standards:

Harmonized Standards:

EN 14766:2015 (Cycles — Requirements for bicycle components and accessories)

EN ISO 898-1:2018 (Mechanical properties of fasteners made of carbon steel and alloy steel)

REACH (Regulation (EC) No 1907/2006 on Registration, Evaluation, Authorization and Restriction of Chemicals)

Conformity Marking: CE Mark (see product label and cover of this manual)

NOTE: This product must comply with all applicable safety and regulatory requirements in the market where it is sold. Sellers must assess which requirements and regulations apply based on the actual product type, function, and destination market.

4. Safety & Warnings **【Mandatory by Category】**

Important Safety Information

Read all instructions before use. Failure to follow these instructions may result in damage to the product or personal injury.

Warning: Keep this product out of reach of children under 6 years old. Small metal adapters pose a choking hazard if swallowed.

Keep away from children unless supervised by an adult during installation.

Do not use this product for purposes other than its intended use (adapting Presta valves to Schrader valve pumps for bicycle tires). Do not use on non-bicycle valves or high-pressure systems.

Inspect each adapter before use; do not use if cracked, deformed, or if threads are damaged, as this may cause air leaks or failure.

Ensure the adapter is fully tightened to prevent air loss during inflation, which could lead to improper tire pressure and risk of accidents.

Do not over-tighten the adapter, as this may damage the valve or adapter threads.

Do not use the adapter with pumps exceeding 120 PSI (8.3 bar), as this may exceed the adapter's pressure rating.

5. Instructions for Use 【Mandatory】

1. Before First Use

Unpack the 4-piece Presta-to-Schrader adapter set and inspect each adapter for damage (cracks, stripped threads, deformation). Discard any defective parts.

Confirm the adapter is compatible with your bicycle's Presta valve.

2. Installation Steps

Step 1: Remove the valve cap and loosen the lock nut from your Presta valve. Open the valve by unscrewing the valve core slightly counter-clockwise.

Step 2: Screw the adapter onto the Presta valve clockwise by hand until it is snug. Do not use tools to avoid over-tightening.

Step 3: Attach your Schrader valve pump to the adapter and inflate the tire to the recommended pressure (check your tire sidewall for specs).

Step 4: After inflation, remove the pump, unscrew the adapter, and tighten the Presta valve core and lock nut. Reinstall the valve cap.

3. After Use & Maintenance

Clean the adapter with a dry cloth after use to remove dirt and debris from the threads.

Store unused adapters in a cool, dry place away from moisture and direct sunlight to prevent rusting.

If the adapter becomes difficult to screw, apply a small amount of silicone lubricant to the threads (avoid oil-based lubricants).

Dispose of the product in accordance with local waste management regulations; recycle metal components where possible.
