

F113 ^{5G}

User Manual

Thank you for purchasing F113

Please read all safety precautions and this manual carefully before using your F113 to ensure safe and proper use.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Overview

Accessories

Charger

Type-C Cable

SIM Card Pin

Gifts: 1* Hand Strap 1* Screwdriver 4*Screws

Battery

F113 is included an internal battery.

You can track your battery status with the icon showed on the top right of the screen. As microwave ovens, stoves, or radiators, batteries may explode when overheated.

- Use only F113 approved batteries specifically designed for your phone. Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating F113 , such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.
- Turn your F113 off and do not remove its battery or charge the battery when in an area with a potentially explosive atmosphere. Sparks in such areas could cause an explosion or fire resulting in property damage, bodily injury or even death. Do not use the F113 near at a refueling point (service station) or near fuels or chemicals.
- Keep your F113 away from moisture. If water or other liquids get into F113 , it will cause F113 overheating, leakage of electricity and malfunction.

Warning

The rechargeable batteries contain toxic heavy metals like mercury, cadmium, and lead. Improperly disposed batteries will cause heavy metal contamination. These batteries when discarded in ordinary household or workplace, after a long time, the heavy metal will leach slowly into the soil, ground water and surface water. Therefore, please dispose of used battery in a proper way.

- Do not land filled, because the heavy metal will leach slowly into the soil, ground water and surface water.
- Do not incinerate, because the heavy metals can enter the air through smokestack emissions and can concentrate in the ash produced by combustion.
- Do not compost, because the heavy metals in the compost may exceed standards.
- Do not throw away used batteries random, avoiding environmental pollution.
- Separate wasted batteries from household trash, reducing its harm to the environment.

Basic parameters

Display:	6.78" FHD+IPS Display
Operating System:	Powered by Android™
Processor:	2*Cortex -A78@ 2.6GHz 6*Cortex -A55@2.0GHz

Smart Phone

Operating Temperature: -10° C to 40° C.

This F113 complies with part 15 of the FCC rules. Operation is subject to the following two conditions: This F113 may not cause harmful interference, and this F113 must accept any interference received, including interference that may cause undesired operation.

This F113 has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio / TV technician for help. an approved antenna.

Pecific absorption rate (SAR):

This mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

This F113 was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this F113 should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Note: Do not use the mobile phone if it has a damaged antenna, as it may cause injury to persons.

In addition

- Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.
- CAUTION : Risk of explosion if battery is replaced by an incorrect type.
- The product shall only be connected to a USB interface of version QC 3.0
- Adapter shall be installed near the equipment and shall be easily accessible.
- The plug considered as disconnect F113 of adapter.
- The F113 complies with RF specifications when the device used at 0mm from your body.

Care and maintenance

Your F113 is a product of superior design and craftsmanship and should be treated with care. By following the warranty obligations and by caring for your mobile, you can enjoy it for many years:

- (1) Keep the F113 dry. Precipitation, humidity and liquids containing minerals will corrode the electronic circuits;
- (2) Do not use or store the F113 in dusty areas as the dust could obstruct or damage the moveable parts;
- (3) Do not store the F113 in hot areas. High temperatures can shorten the life of electronic F113 , damage batteries and warp or melt certain plastics;
- (4) Do not store the F113 in cold areas, because moisture can form inside the F113 when temperature rises, which may damage the electronic circuits;
- (5) Use only approved batteries and accessories. Use of any unauthenticated batteries and accessories could damage your F113 and may be dangerous;
- (6) If there's something wrong with your F113 or its accessories, do not attempt to dismantle the F113 .
Contact qualified service personnel to repair your F113 .

Warranty Card
