USER MANUAL

Product Information

Product Name: [Diamond Painting Kit]

Package Contents：

1 x Pre-printed canvas (with adhesive layer and symbol guide)

1 x Set of colored resin diamonds (numbered bags)

1 x Diamond applicator pen

1 x Gel wax / adhesive pad

1 x Diamond tray

How to Use

Prepare your workspace

Lay the canvas flat on a clean, dry surface. Peel back a small portion of the protective film to expose the adhesive area you want to work on.

Prepare the applicator

Dip the tip of the applicator pen into the gel wax. This helps pick up diamonds.

Pour a small amount of diamonds into the tray. Gently shake to arrange them right-side up.

Apply diamonds

Pick up a diamond with the pen and place it onto the corresponding symbol on the canvas.

Work in small sections to keep the adhesive from drying out.

Use the tweezers for precise placement if needed.

Complete the painting

Continue until all symbols are covered. Gently press down diamonds with a book or roller to ensure they are firmly attached.

Finishing

Once finished, you may roll the canvas with a rolling pin to secure the diamonds.

Optionally, seal with a diamond painting sealer or laminate film to prevent diamonds from falling off (not included).

Safety Warnings

Choking Hazard – Contains small diamonds and parts. Not suitable for children under 3 years. Keep away from infants and pets.

Gel Wax / Adhesive – Do not eat. If swallowed, seek medical help immediately. Avoid contact with eyes.

Ventilation – No harmful fumes, but work in a well-lit area to avoid eye strain.

Allergy – If skin irritation occurs, discontinue use.

Maintenance and Storage
During crafting:

Keep diamonds in labeled bags or containers to avoid mixing.

Close the adhesive cover when not working to keep canvas sticky.

After completion:

Place a protective sheet over the finished painting if rolling for storage.

Clean dust with a soft, dry brush – do not use water.

Storage of materials:

Store leftover diamonds in sealed bags, away from heat and moisture.

Keep applicator pen and tray in a dry place.

Store unfinished projects flat, covered with the original film.
