ABOUT PASSION

Function nand Operation

Power on: Short press button ② Light blue LED fast blink and vibrate.

Power off: Press and hold the button for 2 seconds. The LED light will flash red and... vibrate.

After powering on, Light blue LED ① fast blink,indicating that the device has not detected the heart rate.

After the heart rate is detected, LED light t ① can display the heart rate zone.

Heart Rate Zone*	Intensity	Breathing Light Color
Zone 1 (<60% MHR)	Very Light	
Zone 2 (60%-70% MHR)	Light	
Zone 3 (70%-80% MHR)	Moderate	
Zone 4(80%-90% MHR)	Hard	
Zone 5(90%-100% MHR)	Maximum	

Note: The heart rate zone is calculated based on the maximum heart rate(MHR).

Recommended MHR Calculation: 220 minus your age.

The default MHR value is 200 bpm and can be set in the CoospoRide/Heartool App.

Wearing

- 1.Remove the transparent cover 5 from the back of HW9.
- 2.Wear the armband on the upper forearm or on the inner or outer side of the upper arm ③.
- 3.Adjust tthe earband to a comfortable ength so it stays close to the skin. Thisv will prevent it from sliding gorcoming g loose during intense exercise and ensure accurate heart rate monitoring.

Note: Please do not wear it on your wrist 4 .

FCC statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
