

# Instructions

Infrared Thermometer

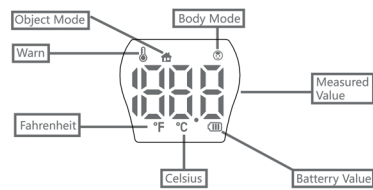

- High temperature alarm
- °C or °F Reading
- High-accuracy
- Measures instantly in 1 second
- Multiple uses
- LED display
- Automatic shutdown features

## How to use it:

### Components Description

- ① Measurement button
- ② Display screen
- ③ Infrared sensor

## Product Information

Product name	Infrared Thermometer
Model specification	
Measurement method	Non contact
Storage temperature	-10°C~+55°C ≤85%RH
Measuring distance	3cm-5cm
measuring range	32.0°C-42.9°C
measurement accuracy	35.0°C~42.0°C within ±0.2°C 35.0°C~42.0°C Outside ±0.3°C
Automatic Power-off	No operated within 20 seconds
Package size	39mm*27*123mm
Operating environment	-20°C~42°C RH≤85%

Function	Press & hold button to switch °C/°F when the power is off.
	Press & hold button to switch body or room temperature mode when power is on.

### Power Supply

The built-in battery charging model (the battery back cover cannot be opened) supports one of the following power supply methods:  
 1. Type-C data cable for charging.

## Temperature prompt icon

1. Measurement display icon: 32°C < measurement temperature < 37.4°C (99.32), the measurement display icon is bright green;
2. 37.5°C < measurement temperature < 37.9°C (100.22), the measurement display icon is bright yellow;
3. Measurement temperature is greater than or equal to 38°C, the measurement display icon is bright red;
4. When T < 32°C, the measurement display icon is bright green and displays "LO".
5. When T > 42.9°C, the measurement display icon is bright red and displays "HI".

### Battery level display icon

1. In standby mode, the battery full icon will flash when low on power.
2. In charging mode, the full icon will flash, and in full mode, the full icon will stay on.

## CERTIFICATE OF CONFORMITY

Product Name: Infrared forehead thermometer  
 Product model: MODEL: GW813  
 Executive standard: GB 9706.1-2007, YY0505-2012, GB/T14710-2009  
 Inspectors:  
 Production batch: 20260630  
 Production Date: 20260630
