PRODUCT INSTRUCTION MANUAL

120 Soft Chews	Net Wt. 10.58 oz (300 g)	Brewer's Yeast Flavor
----------------	--------------------------	-----------------------

Prepared from the product label and supplier-provided product information.

1. Product Information

Read the entire manual before use. Retain this document for future reference.

Brand	Jobenix
Product Name	Flea & Tick Chews
Product Type	Daily nutritional soft chew supplement
Suitable For	Dogs and cats; use according to body weight and veterinary advice
Net Content	120 soft chews / 300 g (10.58 oz)
Flavor	Brewer's yeast flavor
Physical Form	Brown soft chew pieces in a sealed plastic bottle
Manufacturer / Supplier	Guangzhou Petjoy Biotechnology Co., Ltd.

2. Intended Benefits

Daily Outdoor Defense Support	Designed to support a pet's normal defenses during everyday outdoor activity and seasonal exposure.
Skin & Coat Nutrition	Brewer's yeast, flaxseed meal and B vitamins provide nutritional support for healthy skin and a glossy coat.
Easy Daily Administration	Soft chew format can be offered as a treat or mixed with the pet's regular food.
No Harsh Chemicals	The product label states a natural-ingredient formula without harsh chemical pesticides.
Important	This product is a nutritional supplement. It is not a substitute for veterinarian-recommended flea, tick or mosquito control, and it is not intended to diagnose, treat, cure or prevent disease.

3. Suggested Feeding Amount

Give once daily. Begin with half of the suggested amount and gradually increase to the full daily serving.

Body Weight	Daily Amount	Approx. Bottle Duration
Under 10 lb (under 4.5 kg)	1 soft chew	120 days
10-30 lb (4.5-13.6 kg)	2 soft chews	60 days
31-60 lb (14-27 kg)	3 soft chews	40 days
61-90 lb (27.6-40.8 kg)	4 soft chews	30 days
Over 90 lb (over 40.8 kg)	5 soft chews	24 days

- Administer the full daily serving at one time unless your veterinarian instructs otherwise.
- For best results, use consistently for 4-6 weeks.
- Fresh drinking water should always be available.
- For cats, puppies, kittens, senior pets, pregnant or nursing animals, confirm suitability and serving amount with a veterinarian before use.

4. Active Ingredients

Active Ingredient	Amount per Soft Chew	Nutritional Role
Garlic Powder	400 mg	Included in the formula for daily outdoor-defense support.
Flaxseed Meal	400 mg	Source of fiber and plant-based fatty acids for skin and coat support.
Brewer's Yeast	200 mg	Provides naturally occurring nutrients and supports skin and coat condition.
Vitamin B12	500 mcg	Supports normal energy metabolism and overall vitality.
Vitamin B1 (Thiamine)	500 mcg	Supports normal carbohydrate metabolism and nervous-system function.
Vitamin B6	500 mcg	Supports normal protein metabolism and general wellness.

Batch verification: Ingredient declarations and amounts must be checked against the final production label and certificate of analysis before commercial distribution.

5. Inactive Ingredients

Inactive Ingredient Blend

Coconut oil, flaxseed oil, neem, glycerin, pea flour, tapioca starch, sunflower oil, natural flavors, apple cider vinegar, citric acid, vitamins and minerals.

6. Cautions

- For animal use only. Keep out of reach of children and other animals.
- Do not exceed the suggested daily amount unless directed by a veterinarian.
- Consult a veterinarian before use in pets that are pregnant, nursing, breeding, very young, elderly, medically managed, or taking prescription medicines or other supplements.
- Do not use in animals with a known allergy or sensitivity to yeast, garlic, flaxseed, neem, or any listed ingredient.
- Stop use and seek veterinary advice if vomiting, diarrhea, unusual lethargy, itching, swelling, breathing difficulty, or any other adverse reaction occurs.
- Do not use the product if the safety seal is missing, broken, or damaged.
- This supplement should not replace veterinary diagnosis or approved parasite-control treatment. Consult a veterinarian if fleas, ticks, mosquitoes, skin irritation, or other symptoms persist.

7. Storage

Temperature	Store below 30°C / 86°F.
Environment	Keep in a cool, dry place away from direct sunlight, heat and moisture.
Container	Keep the lid tightly closed after each use.
Shelf Life	Use before the expiration date printed on the package. Discard any product with an unusual odor, color, texture or damaged packaging.

Hygiene Tip

Use clean, dry hands or a clean utensil when removing soft chews. Do not return unused or contaminated chews to the bottle.

8. OEM / ODM Services

Private-label and customized pet supplement solutions are available for distributors, brands and cross-border sellers.

Service	Available Options
Formula Customization	Ingredient selection, functional positioning, flavor and texture adjustment, subject to regulatory and technical review.
Dosage Forms	Soft chews, capsules and powder.
Packaging	Bottle size, count, pouch, carton, inserts and shipping carton customization.
Branding	Private label, label artwork support, packaging design and multilingual copy.
Minimum Order Quantity	MOQ from 100 units, subject to formula, dosage form and packaging selection.
Quality & Documentation	Sample confirmation, batch documentation and compliance files may be provided according to project requirements. Certification scope must be confirmed for each order.
