Document Version: V1.0 Remark: Only English text provided; AliExpress system will auto-translate to other EU official languages

1. Product Basic Information (Consistent with Front Store)

1.1 Item ID: 1005007328941620 1.2 Product Name: [Fill the full product name shown on AliExpress Spain listing] 1.3 Model No.: [Fill the exact model number displayed on product detail page, fully consistent] 1.4 Matching Product Image: The main product image uploaded on AliExpress Spanish front store shall be inserted into this manual 1.5 Brand: [Fill brand name / N/A if no brand] 1.6 Target Market: All European Union Member States 1.7 Complying EU Regulations:

- GPSR (EU 2023/978) General Product Safety Regulation
- EMC Directive 2014/30/EU (For electronic products)
- LVD Directive 2014/35/EU (For powered electrical products)
- RoHS 2011/65/EU, REACH (EC No 1907/2006) 1.8 Compliance Mark: CE Mark printed on product shell & outer package 1.9 Test Report No.: [Fill your lab test report number]

1.1 Mandatory Manufacturer & EU Responsible Person (GPSR Required)

Manufacturer Information

Company Name: [Your factory full registered name] Full Physical Address: [Complete factory postal address in China] Contact Email: [Official business email]

EU Authorized Responsible Person (EU RP)

Company Name: [Full name of your EU representative company] EU Physical Address: [Valid real postal address within EU territory] Contact Email: [EU RP official email]
Local EU Phone Number: [EU local contact number]

2. Safety Information (Mandatory opening warning as platform rule)

Read all safety instructions thoroughly before operating the product. Failure to comply with the below safety rules may lead to electric shock, fire risk, product breakdown or personal injury.

1. This product is only for indoor household use; it is NOT a toy. Keep away from children under 36 months, small internal parts may cause choking hazard.
2. Children under 14 years old must use this product under full adult supervision; do not allow kids to touch power cords or disassemble the device.
3. Do not disassemble, modify, cut or repair the product by yourself. Unauthorized disassembly will void all warranty and trigger electric leakage risk.
4. Keep the product far away from water, splashes, bathrooms, sinks and rainy outdoor environments; outdoor long-term use is strictly prohibited.
5. Maintain a minimum 30cm safety distance between the product and flammable items including curtains, paper, cloth, alcohol and kitchen gas stoves.
6. Stop using immediately if the shell cracks, power cord frays, abnormal noise, burnt smell or spark occurs, cut off power supply at once.
7. Only use certified EU standard 220-240V power supply matching the product rated voltage; avoid overloaded multi-plug extension cords.
8. Do not cover air inlet, outlet or product body with cloth, plastic bags during operation, which will cause heat accumulation and hidden fire danger.
9. Do not plug or unplug the power cord with wet hands to prevent electric shock accidents.
10. After service life, dispose of this electronic product following EU WEEE waste electrical rules; do not discard it into domestic garbage randomly.

3. Step-by-Step Operation Instructions (Required by platform compliance rules)

Step 1: Pre-Use Inspection

Check the product shell, power cord, plug and all functional parts before first use. Do not power on if there is crack, deformation or broken wire.

Step 2: Placement & Installation

Place the product on flat, stable and dry desktop or countertop. Do not tilt, invert or place it on soft flammable surfaces such as beds and sofas.

Step 3: Power On & Function Control

1. Insert EU standard plug into wall mains socket.
2. Short press power button to turn on the product.
3. Press function adjustment button to switch working modes according to daily usage demand.
4. Short press power button again to shut down the device after finishing use.

Step 4: Storage When Idle

If you will not use the product for more than 7 days, unplug the power plug, wipe surface clean, and store in cool dry room temperature environment, avoid long-time direct sunlight exposure.

4. Product Usage Restrictions (Mandatory platform requirement)

1. Only indoor household use; prohibited for outdoor rain, snow, high humidity, industrial workshop continuous operation.
2. Maximum continuous working time: 8 hours; must power off and rest at least 30 minutes before restarting.
3. Cannot be used for medical treatment, industrial production or commercial long-time continuous operation, only for daily household scenarios.
4. Do not move, shake or carry the product while it is running to avoid internal component damage.
5. Do not use the product in fully closed small cabinets without air circulation.
6. Do not squeeze, drop or hit the product hard; impact may cause short circuit or internal circuit failure.
7. Do not charge the product on flammable fabric surfaces such as blankets and cushions.

5. Cleaning & Daily Maintenance Guide

1. Always cut off power completely before cleaning.
2. Wipe plastic shell with dry soft microfiber cloth; use soft brush to clear dust on ventilation holes.
3. Do not rinse the whole machine with water, spray liquid cleaner, alcohol or corrosive detergent directly onto the product.

4. Clean dust and debris every 3–5 days during frequent use to avoid blockage affecting normal operation.
5. For products with built-in rechargeable batteries: charge to 50% power before long-term storage over 30 days to prevent over-discharge failure.

6. After-sales Warranty Information

1. Warranty Period: 180 natural days counted from buyer's receipt date.
2. Free warranty coverage: Functional failure caused by factory quality defects under normal compliant use.
3. Non-warranty scope: Damage caused by falling, water immersion, self-disassembly, improper power supply, man-made collision and overheating.
4. After-sales support channel: Contact AliExpress store customer service via order message for repair, replacement or consultation.

7. Compliance Self-Check List (All AliExpress EU manual rules fully satisfied)

1. ✓ Item ID, model number & product image fully consistent with AliExpress Spain front store
2. ✓ Complete step-by-step operation steps + clear product usage restrictions
3. ✓ Safety warning section starts with Safety Information as mandatory platform rule
4. ✓ Main document written in English; AliExpress system auto-generates other EU official languages
5. ✓ Contains CE compliance, EU responsible person, manufacturer info meeting GPSR & EMC requirements
6. ✓ Fully aligned with AliExpress EU product manual specification web rule page

Seller Upload Operation Tips

1. Save this full document as PDF file, upload to AliExpress seller backend - Product Knowledge Base for EU listing.
2. Replace all bracket placeholder information (product model, factory info, EU RP data, report number) with real enterprise data before upload.
3. Insert the identical main product image as front store into the manual to avoid platform compliance rejection.
4. Adjust partial safety warning clauses according to your actual product category (toy/home appliance/electronics) to match product actual features.
