

Instructions for Use of Bark Stopper

Vibration mode will only vibrate and will not create electrical punishment

Operating principle of electrical punishment mode:

The first bark will only create vibration warning function

The second bark is accompanied by a vibration and electrical punishment at the same time with a duration of 2 seconds.

The first 1.5 seconds indicate a vibration, and the last 0.5 seconds indicate an electrical punishment

The third bark, the fourth bark, the fifth bark and the sixth bark will create the same function as the second time.

The machine will be asleep for one minute after 6 consecutive starts, and then restart after one minute.

Turn on: Click  Vibrate once

Shutdown: Long press  Vibrate twice

Sensitivity 1-6 Adjustment

Electric punishment 1-6 adjustment

Vibration 1-2 Adjustment

Electric punishment/Vibration/
Sensitivity Switching

- 1、When charging, the  symbol of the display screen scrolls up and down, and it can be filled in 4 hours.
- 2、 sensitivity 1-6 grades (6 is the most sensitive) . It is recommended to use the 6th grade.
- 3、 Vibration 1-2 grades (2 strongest)
- 4、 Electrical punishment 1-6 gears (6 strongest) (it is recommended to use the 3rd grade for the first time, which should be raised or lowered according to the pet reaction)

Pay attention to every detail

Soft silicone anti-wear buckle with food level is highly sensitive, doing no hurt to pets.

Precautions for wearing: the sensing hole faces the mouth.

Type-C

Induction hole

- 1、 Vibration mode of anti-wear buckle (non-conductive) can be used.**
- 2、 when using electric mode, please remove the anti-wear buckle and screw on the conductive pole (short pole for short-haired pets and long pole for long-haired pets). Prompts: Two conductive posts should be completely in contact with the skin, it is invalid to hold the hair!**

Tips:

- 1、 It is recommended to wear it for 0 to 15 hours. Please turn it off and put on the anti-wear buckle or take off the collar when it does not affect your life.**
- 2、 In the early stage, it is suggested to spend some time getting the pets worn when barking, and take it off when stop barking. Repeat it to let pets know this rule.**
- 3、 When you face a pet that is more and more fierce after wearing it, please don't take it off immediately, but continue wear it until it stop barking.**
- 4、 The electrical punishment mode should make sure that two poles come into contact with the skin at the same time (open the hair and make sure the poles touch the skin).**
- 5、 There are lightning signs and vibration signs on the display screen. Please pay attention to the lightning of the electrical punishment mode, and the vibration sign of the vibration mode before wearing it.**
